

Coronavirus (COVID-19) Support

CORONAVIRUS JOB RETENTION SCHEME

What's being offered?

- Government grants to reimburse employers for 80% of an employees' wage, who is unable to work due to the Coronavirus outbreak. ie. Employees who remain on the payroll but are temporarily not working.
- *Particularly aimed at businesses in the tourism, leisure, retail sectors, and those who rely on physical interactions to trade, which have had to cease trading on Government/medical advice. Aim is to encourage employee retention and avoid mass lay-offs and redundancies.*
- Maximum limit - £2,500 per month (£30,000 per annum salary) per employee.
- Employees would be classed as 'furloughed workers' and should not undertake work for the business while classed as 'furloughed'.
- Employees still working, albeit on reduced hours/reduced salaries, are not eligible.
- It is unclear whether directors and shareholders of owner managed companies can put themselves 'on furlough'. *More information required.*
- From our understanding, employees where physical interaction is not required in their job, for instance work can be done remotely, won't qualify. Still await more *information required from HMRC to confirm.*

How to claim?

- Employers will continue to pay employees as normal and then be reimbursed by HMRC.
- Employers must designate affected employees as 'furloughed workers' and notify employees of this change. *Be careful, changing the status of employees remains subject to Employment law, so check employment contracts.*
- Information on 'furloughed workers' and their earnings are to be submitted to HMRC through a new online portal to be setup. *HMRC will set out further details on this process and information required as soon as possible.*

When will I receive?

- Grants to be backdated to 1st March 2020 for all eligible employees and will last for an initial three months but could be extended after this point.
- *HMRC are currently working urgently to set up a system for reimbursement. Existing systems are not set up to facilitate payments to employers.*
- *HMRC are working night and day to get the unprecedented Coronavirus Job Retention Scheme up and running and expect the first grants to be paid within weeks, so optimistically this would be mid-April at the earliest.*
